

WHO ARE THESE MEN?

Lacy McCarthy, the Mysterious, Accuses Two Tammany Lawyers.

ONE OF THEM SAID TO BE AN OFFICE-HOLDER.

GRAND JURY EXPECTED TO ACT TO-DAY

The name of the woman who has been before the Grand Jury for two days past, and whose identity was concealed by Supt. Byrne, leaked out yesterday in General Sessions. She is Mrs. Lucy McCarthy, of No. 104 West Forty-ninth street. Mrs. McCarthy, up to a fortnight ago, kept a disorderly house. It was raided then by Police Captain Haughey, of the West Forty-seventh street station.

Mrs. McCarthy, when she complained to Supt. Byrne that she had paid \$300 for alleged police protection and that she had been imposed upon, gave the names of two men to whom she had paid the money. These men are said to be lawyers, both members of Tammany Hall, and one of them an office-holder. Their names are guarded zealously, not even the members of the Grand Jury being acquainted with them.

Supt. Byrne, Capt. Haughey, his wardman, Michaels, and Mrs. McCarthy were before the Grand Jury yesterday. It was said in the District Attorney's office last evening that the Grand Jury would probably indict to-day. Dr. Parkhurst received a communication yesterday from the police commissioners asking him to appear before them to testify in the investigation of the charges against Capt. Slewin. "For me to say whether I will or will not appear on Tuesday, I am entirely in their hands. There is no lack of evidence in my possession, but I think it would not be wise to present it to the Commission. They do not want to have me indicted to-day, and I am in a question. If any amount of evidence would influence them to do so, I am ready to go. I have no doubt that the Bowery last night, that the Rev. Dr. Parkhurst had been assassinated. Inquiry at his home, however, proved that he was there, safe and sound."

BLEEDING TOO SLOW A DEATH.

Dr. George H. Palmer Stuck His Head Through a Hole in the Ice.

MIDDLETOWN, Jan. 24.—George H. Palmer, twenty-eight years old, for several years employed by Henry Shaw, a farmer a few miles north of this city, made a determined attempt at suicide early this morning.

He was seen to go to a pond a short distance from the house, thrust his head through a hole in the ice and hold it there. Mr. Shaw's daughter ran to him and succeeded in pulling him away from the hole, and then noticed that his shirt front was covered with blood.

Examination of the wound showed that he had cut four gashes in his throat with a pen-knife. The wounds were not deep, and Palmer, lying on the floor, professed to be bleeding to death, made a rush for the pond and tried drowning.

A physician found the wounds, which are not serious. He has been acting queerly of late and being evidently insane was brought to the police station and placed in the State hospital.

VENTURED UPON THIN ICE.

The Drowning of Miss Fannie Stuart on Wappinger's Lake.

WAPPINGER'S FALLS, Jan. 24.—Fannie Stuart, fourteen years of age, broke through thin ice and was drowned last evening while skating on Wappinger's Lake. The lake supplies the surrounding country with ice, and where the cutters had been at work were places not safe. In a spirit of adventure the young girl and her escort skinned over these thin frozen sections, and in a cove where few skaters venture both suddenly broke through.

Attracted by their cries, numbers came to their assistance, and a big overcoat was thrown them. The young man grasped the coat and held on to the girl, but he sank. She was alone before her body was recovered. She was an attractive girl and was a member of the Fire Department. She was employed in the print works.

New Fourth-Class Postmasters.

(Special to The World.)

WASHINGTON, D. C., Jan. 24.—Forty-three fourth-class postmasters were named to-day, including those from New York State: Herkimer County, at Windfall, Miss Julia Cody; Fulton County, at Emmonsburg, George Hesterling; Jefferson County, at Canastota, John F. Baxter; Oneida County, at Lairdville, G. M. Steele; St. Lawrence County, at Heuston, Lawrence Berry; Sullivan County, at Mongaup, H. F. Corwin; Ulster County, at Bull Run, P. A. Sheehy.

Crushed by a Falling Tree.

(Special to The World.)

HOOSICK FALLS, Jan. 24.—Albert Hyde, while felling a tree on Tuesday on the Lebaron farm, at Southwest Hoosick, was crushed beneath it and instantly killed. When found he had evidently been dead several hours. His spine and three ribs were broken. He was twenty-five years of age and leaves a widow and one child aged two.

New Hearing for Chinamen.

(Special to The World.)

PLATTSBURG, Jan. 24.—Through the efforts of Attorney Cantwell the three Chinamen, two months ago ordered to be sent to the Albany Penitentiary, and thence returned to China, are to have a new trial here in a few days. Mr. Cantwell has evidence that, at least, one of them was born in New York City.

Peculiar Accident.

(Special to The World.)

MATTEWAN, Jan. 24.—While Theodore Owen was walking on the railroad track his right foot slipped on a tie, causing a strain upon his leg which broke the knee. He was taken to the hospital, where he is now recovering. He is a well-known character and is very rare.

REVEALED BY THE KOCH TEST.

Dr. Sutcliffe Finds Tuberculosis Among the Cattle of the Insane Hospital at Middletown.

(Special to The World.)
MIDDLETOWN, Jan. 24.—The officials of the State Hospital, for the insane in this city, having reason to believe that some of the cattle in the large herd kept on the hospital farm to supply milk for the institution were suffering from tuberculosis, employed Dr. Sutcliffe, a veterinary surgeon of this city, to inspect the herd.

He found that a large number of the cattle showed symptoms of diseased lungs. To determine whether they had tuberculosis he made use of the Koch lymph test. A marked increase in the temperature of the animals believed to be diseased left no doubt in the doctor's mind, so he today killed one of the cows and found her lungs diseased, as he expected. The work of killing the tuberculous cattle will be continued as rapidly as the Koch test singles them out. Dr. Sutcliffe believes that it will be necessary to slaughter at least forty of the sixty-six cattle in the herd. After the diseased cattle have been killed the stable will be fumigated and the rest of the herd quarantined and closely watched.

THAT ST. GAUDENS MEDAL.

Does Its Rejection Inaugurate an Era of Universal Drapery?

"And so the work of preparation of the medal for World's Fair exhibitors, designed by Mr. St. Gaudens, the famous sculptor, has been stopped because of objections made to it by a religious man which it embodied," says the satirical editor of the Utica Observer. "This is proper; this is a step in the right direction. That vile class of alleged art that represents nude figures must go. The people of these United States are awakening to the debasing and corruptive influences exercised by these so-called works of art. The time will come when they will no longer be seen in places frequented by decent people; when a picture or statue of a nude figure will no more have a place in a private house than a picture of a living subject it represents. The era of the reform has dawned, and it will be no long time before the work will not flag until the object is accomplished, and accomplished fully."

BLED TO DEATH.

Dr. George H. Palmer Stuck His Head Through a Hole in the Ice.

MIDDLETOWN, Jan. 24.—George H. Palmer, twenty-eight years old, for several years employed by Henry Shaw, a farmer a few miles north of this city, made a determined attempt at suicide early this morning.

He was seen to go to a pond a short distance from the house, thrust his head through a hole in the ice and hold it there. Mr. Shaw's daughter ran to him and succeeded in pulling him away from the hole, and then noticed that his shirt front was covered with blood.

TO HELP LABORERS.

Senator O'Connor's Bill for Free Public Employment Bureaus.

SENATOR POUND'S BILL FOR COMPULSORY EDUCATION.

THE FORESTRY COMMISSION REPORT.

ALBANY, Jan. 24.—The bill referred to in The World this morning providing for the establishment of free public employment bureaus was introduced in the Legislature to-day by Senator O'Connor. On Feb. 8 a mass-meeting, to further the interests of the measure, will be held in Cooper Union, in New York City. Among the gentlemen who will speak in support of it are Bishop Potter, who will preside; Joseph H. Choate and Felix Adler.

In brief, the bill provides for the establishment throughout the State of free employment bureaus, which shall be under the control of the Commissioner of Statistics of Labor.

By this bill the Commissioner is directed to organize in all cities having a population of 75,000 or over a free public employment bureau for the purpose of receiving applications for labor on the part of those seeking employment and of applications for help on the part of those who desire to employ labor. He is also empowered to appoint for each bureau a superintendent and such clerical assistance as may be necessary.

A register is to be kept, in which will be entered the name of the applicant, the character of labor or employment desired and the applicant's address. The Superintendent will make a report each Thursday to the Commissioner, who is required to print each week a list of all applicants for labor and help. Copies will be mailed to the Superintendents of the various offices throughout the State, where they will be posted conspicuously for the information of persons desiring employment. Applications shall become void thirty days after their receipt, unless renewed. Applicants must notify the Superintendent within ten days after the required help is secured, or, failing to do so, they will forfeit the privileges of the bureau for the future, at the discretion of the Commissioner.

COMPULSORY EDUCATION.

A bill was introduced in the Senate this morning by Senator POUND, providing for the compulsory education of children, and prohibiting their employment at certain ages, during the sessions of the public schools. The bill enacts that every child between six and sixteen years of age, in proper physical and mental condition, shall attend upon a school where the common-school branches of reading, writing, spelling, arithmetic, grammar and geography are taught in English, or shall attend upon a private school, or be employed in any business or service, or be employed in any other way, except as provided in the bill.

Every child between fourteen and sixteen years of age, not regularly engaged in any useful employment or service, and every child between six and twelve years of age, shall attend upon instruction at least eight school days, during the sessions of the public schools, on account of sickness or other causes. If a child is instructed by a private tutor, or in a private school, or in any other way, the parents or guardians of the child shall be held liable for the cost of the instruction.

It is further provided that it shall be unlawful for any person or corporation to employ or to cause to be employed any child between six and twelve years of age in any business or service, or to employ any child between six and twelve years of age in any other way, except as provided in the bill.

There was a good deal of surprise over the brief discussion on the closure rule in the Senate to-day, and it was expected in an interesting way tonight. It seems that Lieut.-Gov. Sheehan and Mr. Cantor, in arranging the debate, had agreed to speak for three hours each, but when it was their turn both men declined to speak. Mr. O'Sullivan said tonight that he did not care to talk against the measure.

THE CANAL BILL.

The only important committee hearing to-day was that before the joint Assembly and Senate Committees on Canals on the Bradley-Lawson bill, which provides for the entire canal system. The bill was favorably reported by the committee, and it is expected that it will pass the Assembly and the Senate.

The measure would accede to the great benefits that would accrue to poverty-stricken people the bill passed, and it was expected that it would pass the Assembly and the Senate.

ELMIRA, Jan. 24.—The suit of Mrs. Lucy Barnhart against Mrs. Ella Leiby for \$5,000 for alienating her husband's affections is being tried in the Supreme Court here. Barnhart was formerly a member of the Fire Department and Mrs. Leiby keeps a saloon.

Death of John E. Lyon, Oswego.

OSWEGO, Jan. 24.—John E. Lyon, a distinguished citizen, died to-day at the age of eighty-one years. He had been prominently identified with the milling and marine business here for half a century.

After the Grip.

WEAK, TIRED, DISCOURAGED.

Hood's Sarsaparilla Restored Perfect Health and Strength.

"I had the grip, which left my system in a bad condition. My strength was all gone and I was getting weaker every day. My friends said my final rest could not long be deferred. I could not do any work, lacked an appetite, and my rest was much disturbed at night. I was induced to try Hood's Sarsaparilla. After taking one bottle I was greatly benefited and the second restored my lost health entirely so that I can do my work as well as ever. I owe my present health and strength to Hood's Sarsaparilla."

Mrs. M. L. CORBETT, West Berlin, Vermont.

SURPRISES EVERY ONE.

And May Possibly Surprise You as It Does Others.

It is, However, Simply One More Added to the Long List.

It is the Old Story Over Again, Always True and to Be Believed.

It is hard to surprise people nowadays.

They expect so much that nothing short of the wonderful astonishes them.

Yet here is something which seems to have surprised some people, and it may you.

The story as told by Mr. Emil Grello, who resides at 147 Wallace st., New Haven, Ct., is as follows:

"With aching bones," said he, "loss of appetite, great nervousness and general weakness, and after employing several prominent physicians in the vain hope of relief, I at last resolved to take Dr. Green's Nervous Balm and nerve remedy."

"I have taken only five bottles, and now I am glad to say I feel like a new man. I am working hard every day. I feel like a Sampson, and all persons who know me last winter and

see me to-day are surprised at seeing me look so well, strong and vigorous."

"I advise the use of this wonderful medicine for all weakness or breaking up of the nervous system, and those who read this testimony and who are in a similar condition to mine, will give it a trial and be convinced."

That is, just give it a trial if you are weak, tired, nervous and run down in health. Use it if your blood, stomach, bowels, liver or kidneys are out of order. Dr. Green's Nervous Balm and nerve remedy will surprise you by its marvelous power to cure. It is purely vegetable and harmless.

It is, as everybody knows, the discovery and prescription of an eminent physician, Dr. Green, of 35 West 14th Street, New York City, who is acknowledged as the discoverer of a successful specialist in curing nervous and chronic diseases. All who desire can consult the doctor free, personally or by letter.

to build water gates in the State dam across the Black River at Carthage.
